

JINYOU MATERIALS

Bathroom Cabinet OEM Design Collection 2026

Configurable vanity, mirror and material-system references for export projects

A DESIGN-DEVELOPMENT DOCUMENT, NOT A STOCK LIST

How to Use This Collection

- Use each concept to discuss proportions, layout, finish direction and component scope.
- Confirm signed drawings, bill of materials, samples, packing and inspection requirements.
- JINYOU acts as supplier and OEM export partner for partner-manufactured cabinet systems.

Reference visualization only. It is not factory evidence, stock confirmation, a fixed SKU or a final production specification.

SMALL BATHROOM AND APARTMENT REFERENCE

BC-02 Compact Green Vanity

- Floor-standing compact layout with a narrow footprint.
- Matte green finish direction with a simple ceramic basin.
- Confirm plumbing clearance, door swing, hardware and carton protection.

Reference visualization only. It is not factory evidence, stock confirmation, a fixed SKU or a final production specification.

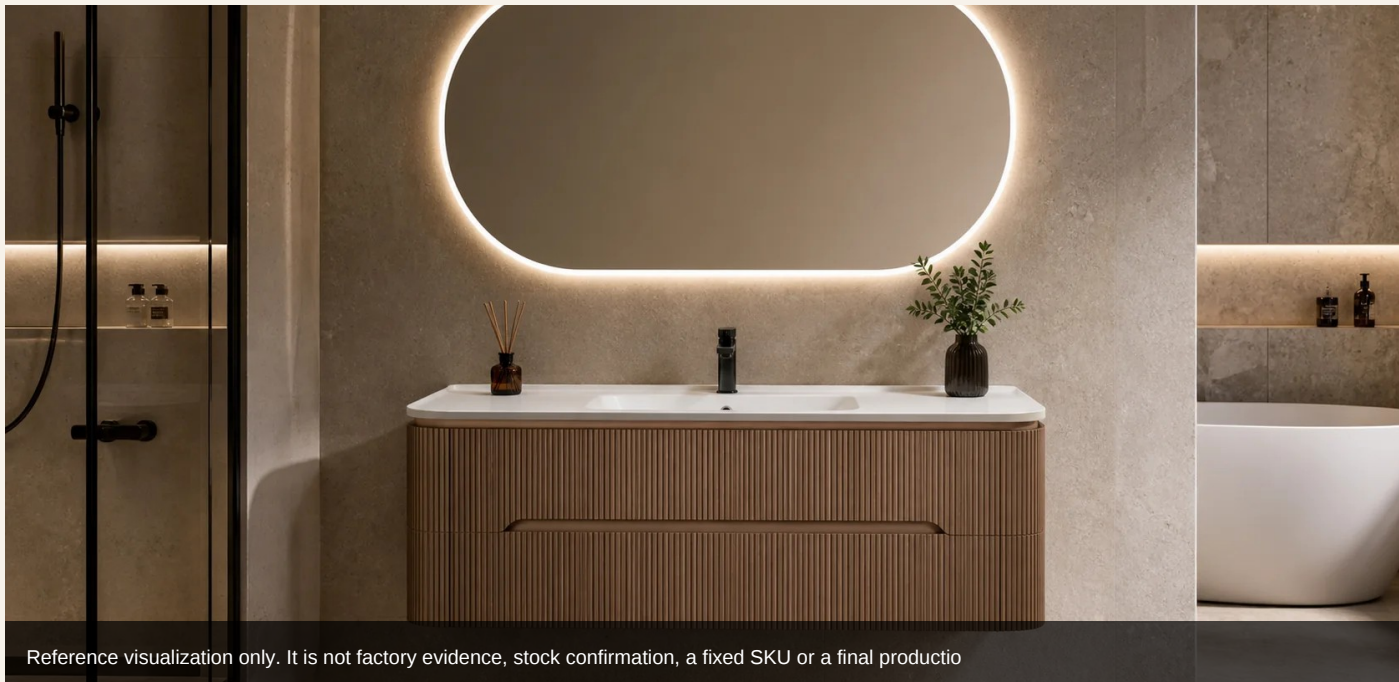

HOTEL, APARTMENT AND PREMIUM RESIDENTIAL REFERENCE

BC-03 Double Vanity

- Double-basin arrangement with balanced storage and mirror coordination.
- Confirm full cabinet width, basin positions and wall services.
- Drawer runners, hinges, handle finish and packing require written selection.

Reference visualization only. It is not factory evidence, stock confirmation, a fixed SKU or a final production specification.

REFLECTIVE CABINET-DOOR REFERENCE

BC-05 PET High-Gloss White

- High-gloss PET surface direction on a waterproof cabinet system.
- Confirm protective film, gloss, flatness, color and edge-banding match.
- Approve the exact film-to-board lamination sample before bulk production.

Reference visualization only. It is not factory evidence, stock confirmation, a fixed SKU or a final production specification.

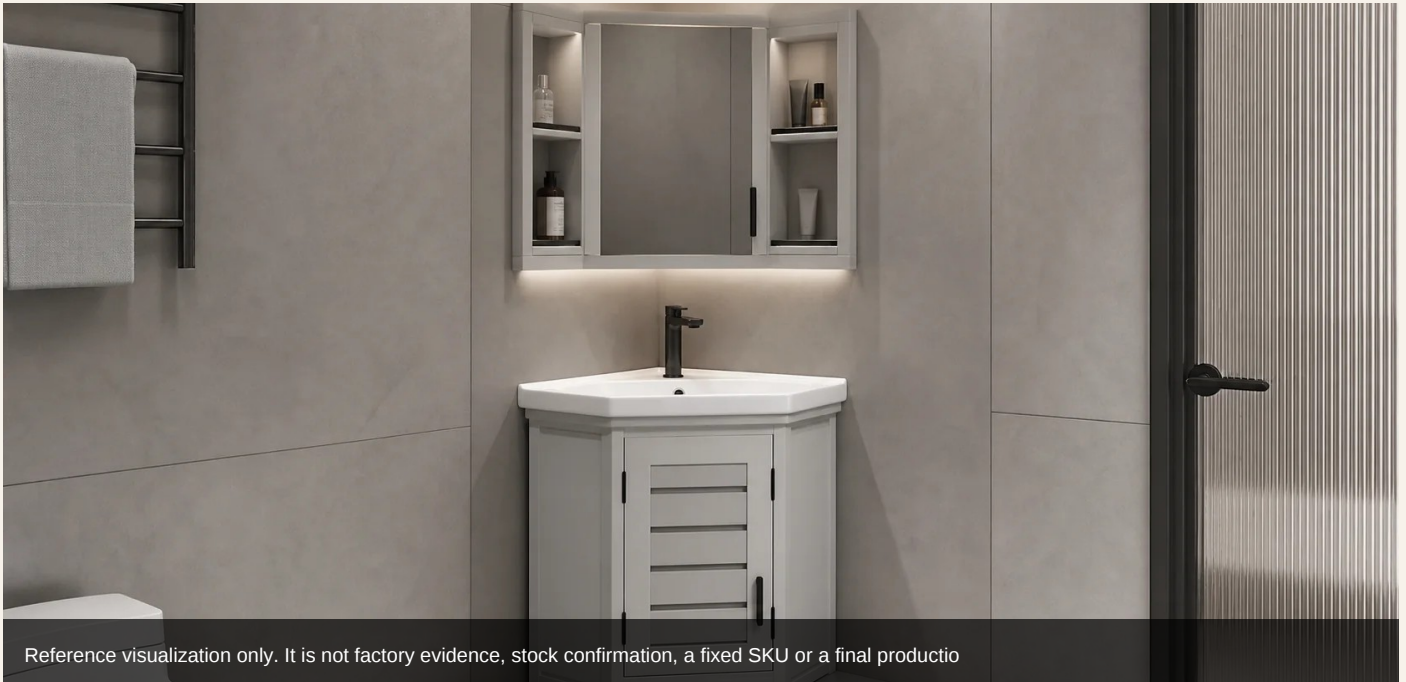

VANITY AND TALL-CABINET PACKAGE REFERENCE

BC-06 Oak Floor-Standing Set

- Floor-standing vanity with a coordinated tall storage cabinet.
- Countertop basin and mirror proportions can be adapted by project.
- Confirm anti-tip, fixing, hardware, carton and pallet requirements.

Reference visualization only. It is not factory evidence, stock confirmation, a fixed SKU or a final production specification.

Reference visualization only. It is not factory evidence, stock confirmation, a fixed SKU or a final productio

SPACE-EFFICIENT PROJECT REFERENCE

BC-07 Compact Corner Set

- Compact cabinet and mirrored storage concept for constrained bathrooms.
- Confirm corner clearance, door opening, faucet and plumbing access.
- Electrical mirror options require destination-voltage confirmation.

Reference visualization only. It is not factory evidence, stock confirmation, a fixed SKU or a final production specification.

Reference visualization only. It is not factory evidence, stock confirmation, a fixed SKU or a final productio

PREMIUM WALL-HUNG REFERENCE

BC-08 Super-Matt Navy Set

- Super-matt navy finish direction with concealed-drawer styling.
- Wide LED mirror and side cabinet can be coordinated by project.
- Confirm anti-fingerprint expectation, hardware and surface sample.

Reference visualization only. It is not factory evidence, stock confirmation, a fixed SKU or a final production specification.

MATCH SUBSTRATE, SURFACE, EDGE AND HARDWARE

Cabinet Material System

- Cabinet body: confirmed PVC foam board grade, thickness and reinforcement.
- Surface: PET high gloss, super matt, PVC decorative film or confirmed coating.
- Edges and bonding: matching edge banding and application-tested adhesive.
- Components: basin, mirror, switch, anti-fog, hinges, runners, handles and fixings.

Reference visualization only. It is not factory evidence, stock confirmation, a fixed SKU or a final production specification.

MOVE FROM REFERENCE TO APPROVED PRODUCTION DATA

OEM Development Workflow

- 1. Send drawings, dimensions, model mix, finish references and destination.
- 2. Confirm material direction, components, samples and required documents.
- 3. Approve signed drawing, sample board and pre-production reference.
- 4. Confirm packing, inspection checklist, shipment marks and logistics plan.

Concept approval does not replace signed production documents.

PROTECT SURFACES AND PROJECT COMPONENTS

Export Packing and Inspection

- Confirm individual carton, foam protection, corner protection and hardware bags.
- Define mirror protection and electrical-accessory packing separately.
- Request packing photos, quantity check and pre-shipment inspection records.

Packing shown is a reference; final packing is product-specific.

Reference visualization only. It is not factory evidence, stock confirmation, a fixed SKU or a final productio

SEND COMPLETE PROJECT DATA FOR A USEFUL QUOTATION

RFQ Checklist

- Cabinet dimensions, layout, model quantities and destination.
- Cabinet body, finish, basin, mirror, faucet and hardware requirements.
- Voltage, switch, anti-fog and destination compliance requests.
- Sample plan, packaging, required documents, Incoterm and target schedule.
